

11kg Abu Revo Beast X 7+1BB Max Drag Baitcast Low Profile Fishing Reel

Our Product Introduction

Basic Information

- Place of Origin: Shandong, China
- Brand Name: Abu Garcia / Sunrise
- Certification: ISO
- Model Number: Abu Revo Beast X
- Minimum Order Quantity: 100 Pieces
- Price: USD 120.8/Piece
- Packaging Details: Negotiated / Standard Package
- Delivery Time: Negotiated / 20 Working Days After Payment
- Payment Terms: T/T
- Supply Ability: 5000 Pieces/Month

Product Specification

- Product Name: Abu Garcia REVO BEAST X
- Material: Metal
- REEL SPOOL MATERIAL: Aluminum
- Fishing Technique: Casting
- Handle Material: Stainless Steel
- Bearing Material: Stainless Steel
- Item Weight: 0.35 Kilograms
- Gearbox Ratio: 6.4
- Highlight: **11kg Abu Revo Beast X,
Abu Revo Beast X 7+1BB,
11kg Low Profile Fishing Reel**

Product Description

Abu Revo Beast X 7+1BB 11kg Max Drag Baitcast Low Profile Fishing Reel

About this item

7 stainless steel HPCR bearings plus 1 roller bearing

X-cräftic alloy frame and side plate

Power stack carbon matrix drag System

D2 gear design

Dragger brass gear

INTRODUCTION:

The REVO LTX BF8 is a baitcasting reel designed for precision casting and smooth retrieves. Some of its key features may include:

Gear Ratio: "BF8" in the model name might indicate a specific gear ratio (e.g., 8:1), which refers to how many times the spool rotates with each complete turn of the reel handle. Higher gear ratios result in faster retrieval rates.

Low Profile Design: The REVO LTX BF8 is likely a low-profile baitcasting reel, which makes it more ergonomic and comfortable to handle during extended fishing sessions.

Advanced Materials: The reel might incorporate advanced materials in its construction, such as lightweight yet durable components, to enhance performance and reduce fatigue.

Brake System: It could come equipped with an advanced brake system (e.g., magnetic or centrifugal) that helps prevent backlash and allows for precise casting control.

Bearings: High-quality bearings can contribute to smooth and reliable operation during casting and retrieving.

Drag System: A high-quality drag system is crucial for handling big fish and preventing line breakage.

Line Capacity: The reel should have adequate line capacity for different fishing situations.
